

## ALI SUB'S HEALTH AND SAFETY PROTOCOL

### BEFORE YOUR VISIT

- We are going to put you some homework to be done at home. **You need to complete online:**
  - The registration form (only if it is your first visit)
  - Health certificate.
- If you have passed the covid19, please **remember to bring your doctor's certificate**. It will help you to go to the water more relaxed if ever.

### WHEN WE MEET IN ALI SUB

- **It is not necessary that you come earlier of the meeting time.** Just need to come on time. In fact, before you arrive, we need to disinfect and prepare the dive center for you. So unfortunately, we will not be able to attend you the way we would like to.
- In case **you are coming with companions**, we super appreciated that you say goodbye to them before arriving to the dive center. Like when we were going to the school that they will goodbye to them at the main door.
- In addition to hugging us from the safety distance , you will find **several hydroalcoholic VITA ASEPGELE dispensers** free to use whenever you desire.
- Despite it is a bit unpleasant **we should use the facemask when we cannot keep the safety distance**. Please bring your own facemask.
- The terrace's and dive shop floors are very pleasant, so we have not mark it with arrows, colours, bands. We believe in the **common sense of everyone** to keep the safety distance. Even though we have marked a **maximum capacity** of people.
- What about the **diving certification**? You don't need to give us your certification neither your diving insurance. Please, **you need to bring them onboard**. We recommend you to bring a watertight box. If you have not one yet, we have them at the shop for sale.
- **Can I rent the diving gear stuff safely?** Of course! For your information we have integrated a **protocol of disinfection and hygiene** measures for our rental diving equipment. So , you just need to be worry about how amazing is going to be your dive.

Below we explain you , with more details, how are these measures. Even more, once you arrive to the dive center we will show you and explain you the disinfection area.

☐ Is there a **changing room**? Yes, you could change your clothes, as usual, in our female and male changing rooms.

There is also a **maximum capacity** of people in the changing rooms. You could also change your clothes in our comfy terrace if you prefer. Either way, once you have your diving suit on, **please keep your belongings in your backpack and store it under the benches** located in the changing rooms.

☐ Can I use the toilet? Yes, you can, we have an available toilet for your use, it is disinfected after every use.

## LET'S GO DIVING

☐ We strongly recommend that **each diver have to set up and manipulate hers or his own diving gear**.

So, unfortunately this season we will not be able to transfer your diving gear for you to the boat, even though, if you really need this service, we will do it for you (with the proper safety measures). But do not worry as you know the distance from the diving center to **the boat is less than 10 meters**.

☐ When the moment arrives, **we will tell you where to bring your diving gear to the dock and from there to the boat to the assigned place**. For your information and tranquility, the captain always disinfects his/her hands before place and secure the diving gears on board.

☐ On board, you have another hydroalcoholic dispenser for you to use at your own convenience and freely.

☐ As of now, **we cannot offer you any drinks on board**. We recommend you to **bring your own water containers to keep your self hydrated**. It is also an opportunity to continue the practice of the non single use plastic.

☐ We really appreciated if you bring on board **your fins, mask in a net or similar bag**.

☐ **During the sailing time everyone on board, must wear a facemask or face protection screen**. It will be removed just before get ready to go to the water and exchange it for the regulator.

☐ **WE ASSURE YOU THAT YOU WILL ENJOY YOUR DIVE AS YOU WERE A CHILD. BENIDORM'S ISLAND AND LLOSA ARE FULL OF LIFE , GRATEFUL AND HAPPY TO YOU SEE YOU THERE.**

☐ After the dive, back to the boat, back to the facemask. Unfortunately, we cannot remove it even to show the usual smile we have after our dives.

## BACK TO THE HARBOUR

□ What I should do with my diving gear? The captain is the person in charge of transfers all tanks and diving gears to the dock, from there you can handle it and bring it where the captain tell you.

□ **Can I rinse it in fresh water?** In somehow yes. You will not rinse it as before in a fresh water tank for safety reasons but instead **we offer you a speedy rinse with a fresh water hose**. You still can hang it on for a while in our terrace while you remove your diving gear and stamp your divelog. Remember that the diving gears also need to keep the safety distance as we do. It is trending tropic everywhere to keep the safety distance.

□ Can I have **a shower after the dive?** Of course. For this new normality **we have installed two outdoor showers in our terrace**. You will love them. There nothing better that refresh yourself watching the sea. Please do not use shampoo, conditions or body wash. Those showers are mean to just a quick and energetic shower, save the water consumption, save the planet. We all win.

□ All done, well one more thing, there is not a good dive without a cold beer after it to talk about when you are coming back to visit us.

## RECOMENDATIONS

□ We strongly recommended you to bring on board a **dry bag or a watertight box where you can keep your personal items** such us facemask, mobile , your antifog ( remember to avoid to spit up in your diving mask for safety reasons).

□ Although you can safely rent your diving gear in Ali Sub **we highly recommend you that at least you have your own regulator, fins, mask booties and antifog**.

If you feel to, we can assist you in our dive shop, we love to know from you your necessities in order to offer you exactly what you need.

□ **You can pay with credit card**. As far as possible, we suggest you to pay in advance by bank transfer.

## DISINFECTION MEASURES:

□ The **common areas** (reception, dive shop, terrace, changing rooms and boats) of Ali Sub will **be perfectly disinfected** before you arrive and after you leave.

□ To **disinfect the rental diving gears** and get a complete **bactericidal, fungicidal and viricidal effect**,( as it is mentioned in the rule EN13697) we have decided to use CONPACK PLUS DISINFECTION.

□ We can assure you that **our rental diving gears are perfectly disinfected for you to use**. Furthermore just before you handle it, we spray with ASEPCOL PLUS (liquid disinfectant hydroalcoholic gel) the mouth pieces of the regulator and the bcd inflator.

Thank you very much for your confidence, we wish you a great dive!
